A highly original theory of how the mind-brain works, based on the author's study of single neuronal cells. In I of the Vortex, Rodolfo Llinas, a founding father of modern brain science, presents an original view of the evolution and nature of mind. According to Llinas, the "mindness state" evolved to allow predictive interactions between mobile creatures and their environment.

Vortex I. A "biodegradable festival of life." Vortex I is the only state-sponsored rock festival in U.S. history. It was, in fact, a diversionary event to lure young people away from planned — and potentially violent — anti-war protests at an American Legion convention in Portland. And by most almost every measure, it succeeded.
