Community Reviews. Anne Charnock's debut novel, A Calculated Life, explores the question from the other side. Instead of replicants we have simulants, but the principle is the same. The simulants are artificially created humans, grown fully formed rather than born, they are created with specific task superiority.

A Calculated Life, by Anne Charnock, is one of those books that while overtly science fiction is really a great insight into humanity today. Ultimately . . . this book is more about human emotion and intelligence than it is about the future: And it's that exploration that makes this such a compelling work.
