Ken MacLeod, *Intrusion*, Orbit, 2012. Ken MacLeod is the most political, or politically conscious, SF author I read. Politics is fundamentally about what is in the best interest of the individual, what is in the best interest of society (or sub-groups within society), and how to balance these interests.

review 1: Though I agree with many of the other reviewers that this book needed further editing -

there are places where it falls slightly flat, and others where you are pulled away from the story by issues with the writing - I enjoyed it very much. The realism of this near-future dystopia, and the normalcy of it all, is what, in my opinion, give the book its charm.
