This Call to Action describes specific steps people can take to participate in a society-wide approach to support mothers and babies who are breastfeeding. This approach will increase the public health impact of everyone's efforts, reduce inequities in the quality of health care that mothers and babies receive, and improve the support that families receive in employment and community settings.

19th May 2018: Cervical cancer is one of the most preventable and treatable forms of cancer as long as it is prevented with HPV vaccination, detected early, and managed effectively. Prevention and early treatment are highly cost-effective. Worldwide however, cervical cancer remains one of the gravest threats to women's lives, and globally, one woman dies of cervical cancer every two minutes.

International Women's Day (March 8) is a global day celebrating the social, economic, cultural and political achievements of women. The day also marks a call to action for accelerating gender parity. International Women's Day (IWD) has occurred for well over a century, with the first IWD gathering in 1911 supported by over a million people in Austria, Denmark, Germany and Switzerland.

Theme for International Women's Day 2019 is #BalanceforBetter

This paper analyzes why SNAP benefits are inadequate, reviews the body of research showing positive effects from more adequate SNAP benefits, and concludes with some of the key policy solutions that can improve benefit adequacy.
