GE2500 Introduction to Oceanography Spring Semester, 2003. Narrative: This course is designed as an introduction to ocean basins and other large bodies of water (such as Lake Superior). Waves, tides, currents, coastal processes, marine resources, marine pollution, and air-sea interaction and its effect on climate will be covered in the course.

GE2500 - Michigan Technological University

The purpose of our lab activities is to have a hands-on learning experience with oceanography. To that end, all lab exercises will be completed in Pencil (except for the ASA's) and graded at the end of each lab meeting. Any lab not completed in pencil will lose 1 point. Any lab not completed during lab time will lose one point.
