AP Computer Science A. AP Computer Science A is a programming class. The course emphasizes object-oriented programming methodology, especially problem solving and algorithm development, plus an overview of data structures and abstraction. The AP Computer Science A exam tests students on their knowledge of Java.. It is meant to be the equivalent of a first-semester course in computer science.

AP Computer Science - Wikipedia

Online homework and grading tools for instructors and students that reinforce student learning through practice and instant feedback.

Statistical significance plays a pivotal role in statistical hypothesis testing. It is used to determine whether the null hypothesis should be rejected or retained. The null hypothesis is the default assumption that nothing happened or changed. For the null hypothesis to be rejected, an observed result has to be statistically significant, i.e. the observed p-value is less than the pre ...
