Our study is motivated as follows. First, we find that few studies have investigated in a single study

the effect of transformational-leadership style on the three MCS design choices, namely, comprehensive performance-measurement system (PMS), reward system, and reliance on broad-scope accounting (BSA) information and managerial performance.

Effect of transformational-leadership style and management ...

A workflow management system (WfMS) is a software system for setting up, performing, and monitoring of a defined sequence of processes and tasks, with the broad goals of increasing productivity, reducing costs, becoming more agile, and improving information exchange within an organization. These systems may be process-centric or data-centric, and they may represent the workflow as graphical maps.

Workflow - Wikipedia

Collaboration is the process of two or more people or organizations working together to complete a task or achieve a goal. Collaboration is similar to cooperation. Most collaboration requires leadership, although the form of leadership can be social within a decentralized and egalitarian group. Teams that work collaboratively often access greater resources, recognition and rewards when facing ...
