Accessing The Wan Answers

Hello Mike, thanks again for your answer. It's not that I "need" 2 network segments, I was just curious if this can be done, and if yes how. At the moment I did what you also wrote at the end of your story, connect the two routers with a LAN connection and switch of the DHCP in the 2nd router making it a switch.

How can I connect two networks with different IP addresses?

We've recently migrated our Windows network to use DFS for shared files. DFS is working well, except for one annoying problem: users experience a significant delay when they try to access a DFS namespace that they have not accessed for some time.

Long pause when accessing DFS namespace - Server Fault
