Discrimination. By Linda Gorman. Many people believe that only government intervention prevents rampant discrimination in the private sector. Economic theory predicts the opposite: market mechanisms impose inescapable penalties on profits whenever for-profit enterprises discriminate against individuals on any basis other than productivity.

A solid, concise overview of world economic history with some limitations. This is primarily a conventional and generally well history of European (including North American) and recent economic history. Much of the book focuses on the Industrial Revolution, the emergence of a global economy in the 19th century, and subsequent events.
