What are the different kinds of solutions in chemistry? What are some examples of concentrated solutions in chemistry? What are some examples of aqueous solutions?

What are true solutions in chemistry with examples? - Quora

A good example is a mixture of oil and water. Chemical solutions are usually homogeneous mixtures. The exception would be solutions that contain another phase of matter. For example, you can make a homogeneous solution of sugar and water, but if there are crystals in the solution, it becomes a heterogeneous mixture.
