"Introductory Lectures on Aesthetics" by "Georg Wilhelm Friedrich Hegel" is a fine piece of work which speaks about "art", how it flourished, how it has taken different turns in the history and how its end is approaching. According to Hegel, Art can flourish the best only when it is given equal importance as compared to religion and philosophy.

Hegel's Introductory Lectures on Aesthetics is a treasure. My only reservation is the double set of Commentaries and especially the complex way the are numbered and organized which make their use cumbersome. If you add the price and the very challenging cover illustration (it alone requires a special commentary) this book is a genuine gem.

No philosopher has held a higher opinion of art than Hegel, yet nor was any so profoundly pessimistic about its prospects - despite living in the German golden age of Goethe, Mozart and Schiller. For if the artists of classical Greece could find the perfect fusion of content and form, modernity faced complicating - and ultimately disabling - questions.
