Immune System Yahoo Answers

Best Answer: The immune system is composed of non-specific (humoral) which is present in wbc's produced and developed in the bone marrow, called B-lymphocytes and specific, (cell-mediated) T cells that are produced and stored in the thymus gland and gather in secondary lymph nodes and organs. In addition, there are NK cells (natural killer).

immune system...please help!? | Yahoo Answers

Best Answer: The best way to boost the immune system is to practice healthy eating and living habits. As simple as this may sound, that is what it takes to get your immune system back in shape. To start with, watch your acid/alkali balance. You can add lemons or apple cider vinegar to your diet (use to make ...

immune system? | Yahoo Answers

How can I make my cat's immune system stronger? She was ill for a long time before we could even begin vaccinations when she was small, and since has had a cold a few times, I just want to make her less prone, if possible, to getting ill? Is it possible to do that, like we do for ourselves? She is a good weight now, her eating has finally been sorted out as well ... eating Orijen, half dry and ...

Immune system boosting.....? | Yahoo Answers

I get sick far too often. I am looking for natural ways to boost my immune system. I take a women's health vitamin every day, along with allergy medicine and a probiotic for digestive health. I am just sick of being sick! This is the third time in like 2 months that I've been so sick I had to stay home from work. Anyone have any advice on good immune system remedies?

Ways to boost immune system? | Yahoo Answers

Best Answer: A strong immune system fights all of the pathogens before they have a chance to harm you, which causes the immune system to cause the symptoms. If you have a weak immune system, you would still feel the cold or whatever disease, just not as strongly because you don't have as much to fight the pathogens.

Strong or weak immune system? | Yahoo Answers

I keep getting sick with all different kinds of germs, I wash my hands frequently and keep my kitchen, bathroom and toilet clean. I have three children and they do bring home all kinds of bugs, but I keep getting sick, my Doctor just says I'm stressed so my immune system is low, how can I boost it?

What can I do to boost my immune system? | Yahoo Answers

what is immune system? | Yahoo Answers

The immune systems of vertebrates consist of many types of proteins, cells, organs, and tissues, which interact in an elaborate and dynamic network. As part of this more complex immune response, the human immune system adapts over time to recognise specific pathogens more efficiently.

what is immunity and immune system of our body? | Yahoo ...

Best Answer: There is no shot to boost your immune system, but if you are run down you should begin by starting a regimen of vitamins recommended by your doctor. He may want to give you a B-12 shot. You must start a balanced diet. If you are anemic, your doctor may order iron supplements for you to take ...

Immune system? | Yahoo Answers

Yahoo New Zealand Answers ... inside the human body and part of the program claimed that the female immune system killed sperm cells, which contradicted what i had seen before, i.e on a admittedly old bbc news article from 2007 and a wikipedia article which referenced said news

article.

does the female bodies immune system kill sperm cells ...

The adaptive immune system is one of the two components of a vertebrate's immune system. The other component, the innate immune system, triggers the adaptive system, which targets pathogens and attempts to destroy them. What makes the adaptive immune system so valuable is its ability to remember the first and recognize any subsequent infections caused by the same pathogen.

What is the Adaptive Immune System? (with pictures)

Yahoo New Zealand Answers ... In this case, prevention means improving the health of your immune system so that it can swiftly respond to attacking cold and flu viruses and eliminate them before you develop any symptoms. The following recommendations can help you do so: 1. To prevent colds and flu, be sure you get enough sleep each night and ...

I have a Bad flu...do you know of ... - nz.answers.yahoo.com

Diseases caused by the action of an individual's own immune system are called autoimmune diseases. Autoimmune diseases appear when the immune system produces antibodies or defense cells that attack cells, tissues and organs of its own body. The attacked cells or tissues are wrongly recognized as antigens by the immune system.

The Immune System - Biology Questions

With the advent of pesticides, herbicides, artificial fertilizer and green harvesting, our fruits and vegetables lack vital nutrients. Today, it is necessary that our diet will need supplements to the food for the immune system. For more info on supplements or other ways to strengthen your immune system without food, goto website in source box.
