Ms. Wiseman's I.B. Chemistry Help

Organic chemistry is the largest topic on the syllabus and concerns the reactions and properties of compounds containing just one element - carbon. The first sub-topic has the heading "Fundamentals of organic chemistry" but in some ways it does not really cover why the chemistry of carbon, has a whole branch of chemistry all to itself. I think it is important that you not only know that there ...

IB Chemistry: Topics 10 & 20 : Organic chemistry

I've checked environmental chemistry for questions relating to B6 syllabus points, but a search through all papers in the last 15 years suggests these syllabus points have yet to be examined by the IBO, which means they might be keen to introduce questions this year so students and teachers can get a feel for what their intentions are.

IB Chemistry HL & SL - www.SmashingScience.org

given in the IB Chemistry data booklet but the ranges there are just approximate. [4] iii The organic chemicals are extracted from the urine sample and then separated into their various components using gas chromatography. Each band, as it comes out of the chromatography column, is passed directly into a mass spectrometer, where it is analysed.
