Alka-seltzer Myth? | Yahoo Answers

it's a medicine that comes in tablets that you have to dissolve in water before you take. i've had some in several occasions and they work pretty well.

What is Alka-Seltzer ? | Yahoo Answers

Best Answer: The aspirin (acetylsalicylic acid) is not an active ingredient in the effervescent action of Alka-Seltzer, but the baking soda (sodium bicarbonate) and citric acid are active. $C_6H_8O_7 + 3 NaHCO_3 \rightarrow 3 H_2O + 3 CO_2 + Na_3C_6H_5O_7$ citric acid + baking soda \rightarrow water + carbon dioxide + sodium citrate The carbon dioxide is released as a gas.

Why does Alka-Seltzer dissolve in water? | Yahoo Answers

I have a terrible cold. The first one in 5 years and it has a hold of me. I had stomach bypass surgery last year. Does anyone know if I can take alka seltzer plus or what I can take to ease the symptoms of achy bones, tiredness, runny-mucus nostrils and not sleeping well. Also, sore throat and swollen lymph glands. All and all - JUST FEELIN LIKE CRAP!!

alka seltzer plus? | Yahoo Answers

Alka-Seltzer and seagulls? Ok does feeding Alka-Seltzer to seagulls make the birds explode? im pretty sure that it makes their stomach hemorrhage and they die a painful death and thats about it but 1 of my friends says it makes them explode so yeah solve our argument plz.

Alka-Seltzer and seagulls? | Yahoo Answers

if you feed alka seltzer tablets to seagulls will they explode like little feathered flying bombs. or will they just build up a lot of fizzing pressure inside and fly round squawking poo over everyone. if the latter is the answer would it be illegal for me to maybe sprinkle a lot of broken up alka seltzer tablets to a flock of pigeons in a shopping centre only me being armed with a umbrella ...

feeding alka seltzer tablets to seagulls? | Yahoo Answers

Best Answer: According to Wikipedia: The effervescent action of Alka-Seltzer, is a reaction to the baking soda (sodium bicarbonate) and citric acid in the tablet. (The Citric acid is in solid form and once diluted in water reacts with the baking soda). It is really just for show as it doesn't actually do anything.

Alka-Seltzer and Water? | Yahoo Answers

Best Answer: Your question as asked is very vague and unclear. First, the Alka Seltzer is a lot more than sodium bicarbonate (baking soda). Although the carbonate, upon exposure to water and acid forms carbonic acid which disproportionates into water and Carbon Dioxide to give it the fizz, Alka Seltzer also has a pain reliever (aspirin I believe).

What Are Good Substitutes for Alka Seltzer Tablets? - Yahoo

Chronic heartburn is usually from acid reflux - stomach acid is getting past the little valve and into your esophagus. You also should know some natural ways to treat your heartburn.

What is Alka-Seltzer ? | Yahoo Answers

The original Alka-Seltzer was invented in 1931 [1] and is a remedy for headache, indigestion, gas, stomach cramps, and heartburn. Sodium bicarbonate in Alka-Seltzer also makes it effective in treating mild blood acidosis associated with allergy (see citation).

What is Alka-Seltzer? | Yahoo Answers

Best Answer: I don't believe that there is any unsafe interaction between these two drugs. They should be OK to take together, as long as you check to make sure the specific type of Alka-Seltzer

you are taking doesn't have any ibuprofen in it. I don't think any of them do.

Alka Seltzer and Ibuprofen? | Yahoo Answers

My question is about alka seltzer. So within the tablet it's sodium bicarb and citric acid that react to form water, CO₂, and sodium citrate. Is there a way to get tablets with these isolated ingredients? It's for a project I'm working on where I want to be able to put in tablet or powder to make the water fuzzi, but not have any left over ingredients floating around after.

About alka seltzer and reaction with tonic water? | Yahoo ...

Alka-Seltzer is marketed as a remedy for stomach problems (such as heartburn or indigestion) and pain relief. It contains aspirin, sodium bicarbonate, and citric acid, and is effervescent when placed in water. Enter the equation for the reaction of sodium bicarbonate, NaHCO₃, with citric acid, C₆H₈O₇.

Questions | Yahoo Answers

Best Answer: Yes it does. If you use a mint mento it will work better. The best way is to do like "Myth busters" and put 3 or 4 mint Mentos in there at once. Almost doubtful you will get the cover on...
