### **Solutions to exercises in Introduction to logic by Irving ...**

Answers. For the longest time an introduction to logic consisted of Aristotelian (also called "Classical") logic. This differs from the now more prevalent "Symbolic Logic" (also referred to as "Modern Logic" sometimes). The latter seems to be very similar to Mathematics because it uses variables to represent certain concepts.

problems; I ask the students why a particular answer would be wrong – and the students tend to give good answers. The pretest gets them interested in logic right away, gives them an idea of what logic is, and lets them see that there are good reasons for saying that something does or does not follow from a set of premises.
