The Basic Two: Sine and Cosine. A picture is worth a thousand words (which is why it takes a thousand times as long to download). The trig functions are nothing more than lengths of various sides of a right triangle in various ratios. Since there are three sides, there are $3 \times 2 = 6$ different ways to make a ratio (fraction) of sides.

What about the others who have successfully completed the rehabs they have started through this program? I think it's more than 100. So, if we use your logic at looking at how A&E subjects have performed after rehab to judge it's efficacy, then rehab is indeed successful since the success rate of those on this show is somewhere around 90 percent judging by the numbers I've seen.
