The 2014 AP Chemistry exam was the first administration of a redesigned test as a result of a redesigning of the AP Chemistry course. The exam format is now different from the previous years, with 60 multiple choice questions (now with only four answer choices per question), 3 long free response questions, and 4 short free response questions.

AP Chemistry - Wikipedia

The Importance of Temporal Data in Ecology. Although ecological processes can be studied with spatial patterns in populations, communities, and ecosystems, there are particular advantages of temporal data for ecology .Because temporal data are unidirectional (environmental changes must occur before their impacts are visible), they provide some of the best means of identifying causal relations ...
