If in the first part of 2666 the four critics represented a kind of blindness to the atrocity, and in the second part Amalfitano's response was a kind of refuge in desperation that nonetheless kept an eye open to what was happening, then one might say The Part About Fate presents another response: active resistance, with both eyes open, to the crimes that will spill across the pages of the next part of 2666.

I found The Part About the Crimes less pleasant to read than the first three books of 2666.
