A great listen. The 13 things are well explained. Each one is explained as to how they were found, why they don't make sense, and some of the theories that are being considered to explain the problems. Expanded my grasp of reality and really got me thinking. The perfect gift for someone who thinks they know it all.

13 Things That Don't Make Sense (Audiobook) by Michael ...

and you would do that how? It is surrounded by vacuum and the magnetic field keeps most of the heat from leaking out. it would be very hard to heat up any thing without melting all the parts currently containing the fusion reaction inside a magnetic field. and I don't want to know what would happen if the fusion reaction was no longer contained by said magnetic field.
