Human Universe Brian Cox

"A Place in Space and Time". Professor Brian Cox explores our origins, place and destiny in the universe. He describes the initial conditions of the human psyche as one that places itself at the center of the universe, surrounded by family, environment, and events. Brian tells the story of how our innate human curiosity has led us...

Human Universe - Wikipedia

Human Universe was written by Brian Cox and Andrew Cohen, both theoretical physicists. It was based on the series with the same name. In this book the authors try to make sense of human life in a very clear way. I guess their main point is to make us appreciate and value humankind instead of destroy it.

Human Universe by Brian Cox - Goodreads

Human Universe by Professor Brian Cox "Human Universe" is a very good complementary book to the BBC documentary series of the same name. Professor Brian Cox takes the reader on an uplifting journey of the big questions that has taken humanity from ape-man to space-man.

Amazon.com: human universe brian cox

Brian Cox's Human Universe presents a fatally flawed view of evolution. From this it is clear that human beings do not stand at the top of a ladder of creation, above the apes and below the angels, naturally superior to all other species. Instead, humans represent one twig in a very busy bush of twigs, each one representing one species, living or extinct.
