Energy for Life ENERGY IS THE KEY We use a lot of energy to live. Whether we're playing, studying or eating, energy makes these activities possible. We also use energy for production—to run machines, for instance. Much of this energy comes from fuels like oil, coal or natural gas.

### energy for life - Eccles Science

All life's work needs energy. A lot of energy is also simply lost to the environment as heat. The story of life is a story of energy flow—its capture, its change of form, its use for work, and its loss as heat. Energy, unlike matter, cannot be recycled, so organisms require a constant input of energy. Life runs on chemical energy.
