Evidence of common descent of living organisms has been discovered by scientists researching in a variety of disciplines over many decades, demonstrating that all life on Earth comes from a single ancestor. This forms an important part of the evidence on which evolutionary theory rests, demonstrates that evolution does occur, and illustrates the processes that created Earth's biodiversity.

Hover here for Article Summary Back in the 1980s, Vincent Covello and I gave back-to-back presentations on risk communication as part of a U.S. Environmental Protection Agency lecture series. When Tony Wolbarst of EPA decided to collect the presentations into a book, he offered everyone a chance to revise and update.

Risk communication: Evolution and Revolution (Peter M ...

The creation–evolution controversy began in Europe and North America in the late 18th century, when new interpretations of geological evidence led to various theories of an ancient Earth, and findings of extinctions demonstrated in the fossil geological sequence prompted early ideas of evolution, notably Lamarckism. In England these ideas of continuing change were at first seen as a threat to ...

By Miltiades Hatzopoulos, VII International Symposium on Ancient Macedonia, 2002. In my communication to the last Ancient Macedonia symposium on the character of the ancestral tongue of the Macedonians I cautioned that I did not pretend to solve the controverted question of the "nationality" of the ancient Macedonians, not only because language is, at best, only one of the several elements ...

1.3. Theory: the evolution of systems with multiple required components. The standard answer to this question was put forward by Darwin. Mivart (1871) argued that the "incipient stages of useful structures" could not have evolved gradually by variation and natural selection, because the intermediate stages of complex systems would have been nonfunctional.

The familiar story of the building of the Tower and City of Babel is found in Genesis 11:1-9. From the initial setting given for the account, on the plain of Shinar, to the final lines where the city is identified with Babel, it is clear that the events recorded took place in southern Mesopotamia.¹ It is this southern Mesopotamian backdrop that provides the basis for studying the account in ...
