I live in the future as it is forming and this is happening far faster than most people realise, and far faster than the human mind can comfortably perceive. The noted science-fiction writer William Gibson, who is a favourite of hackers and techies, once wrote: "The future is here. It's just not evenly distributed yet". But, from my vantage point at its apex, I am watching that distribution curve flatten, and quickly. Simply put, the future is happening faster and faster. It is happening everywhere.
