Toddlers will experience huge thinking, learning, social, and emotional changes that will help them to explore their new world, and make sense of it. During this stage, toddlers should be able to follow two- or three-step directions, sort objects by shape and color, imitate the actions of adults and playmates, and express a wide range of emotions.

### **Toddlers (2-3 years old) | CDC**

Your toddler will seem to be moving continually—running, kicking, climbing, or jumping. Let him be active—he’s developing his coordination and becoming strong. Make sure your child gets the recommended amount of sleep each night: For toddlers 1-2 years, 11-14 hours per 24 hours (including naps) For More Information

### **Toddlers (1-2 years old) | CDC**

All developmental milestones are validated by the American Academy of Pediatrics. Abilities are developmental steps your child should be reaching. Missing one or two abilities should not cause

alarm, as every child develops differently. If you notice possible warning signs, use our checklists to track their behavior and discuss concerns at the next well-baby visit.
