Classifying Sharks using a Dichotomous Key. A classification system is a way of separating a large group of closely related organisms into smaller subgroups. With such a system, identification of an organism is easy. The scientific names of organisms are based on the classification systems of living organisms.

Classifying Sharks using a Dichotomus Key

A dichotomous key is a series of paired questions that refer to structural features. The answer to each question leads the reader to a different pair of questions each time until a definite classification can be made. The questions are designed to continually separate the subjects based on their structural differences. The Alien Kingdom:
