The Foundation of all Science. Physics is the study of the world around us - and how it works. When you study physics, you build the foundation for immediate, practical application as well as cutting-edge theoretical research.

Department of Physics

Physics was known as natural philosophy until the late 18th century. By the 19th century, physics was realised as a discipline distinct from philosophy and the other sciences. Physics, as with the rest of science, relies on philosophy of science and its "scientific method" to advance our knowledge of the physical world.
