The Undergraduate Education Subcommittee has as a strategic goal of enhancing undergraduate education in toxicology by providing high-quality resources for teaching and professional development of undergraduate educators.

Society of Toxicology

Inquiry-based learning (also enquiry-based learning in British English) is a form of active learning that starts by posing questions, problems or scenarios. It contrasts with traditional education, which generally relies on the teacher presenting facts and his or her knowledge about the subject. Inquiry-based Learning is often assisted by a facilitator rather than a lecturer.
