Incredible Shrinking Scientist Critical Thinking Answer Key

Mercury: The incredible shrinking planet. In order for such shrinking to take place, Mercury must have had a molten, liquid core that has cooled and contracted over time. That may settle a debate that has raged for more than 30 years about the planet's magnetic field. Researchers have wondered whether the field is more like Earth's,...

The Incredible Shrinking Workforce. For months now economists have suggested that the low unemployment rate—4.1% as of last month's report—implies that America is at or near full employment. Yet the labor market is still below its prerecession peak, with about two million jobs missing. Many of those workers have joined the disability rolls.
