Introduction to Networking - ed2go
The electrician runs another cable from the back of the wall plate to the wiring closet into a patch panel. Finally, either the electrician or the network engineer connects a cable from the patch panel in the wiring closet to the hub. Together, these cables provide two twisted pair between the PC NIC and the hub.

Local area network (LAN) a network that is usually confined to a single building and is managed by a single entity such as a company.

Chapter 1 intro to networking Flashcards | Quizlet

This text is a college level introduction to networking. Although the book claims that it is written for novices, it is too technical for "newbees." For this reason, it is not the easiest book on this subject. After a few pages, I gave up.. For its credit, it is very comprehensive and does cover all the topics related to networking.
