Overview Algebra is the study of structure in mathematics - at school you mainly studied the structure of the integers, the rational numbers and the real numbers, and learned facts like '2 does not possess a multiplicative inverse that is an integer', ' there is no rational number that squares to 2'.All algebra is 'abstract' - every algebraic concept you have learned is an abstraction of some ...

Introduction to Abstract Algebra - UCB Mathematics

algebra and are discussed next: APPLICATIONS The question of including "applications" of abstract algebra in an undergraduate course (especially a one-semester course) is a touchy one. Either one runs the risk of making a visibly weak case for the applicability of the notions of abstract algebra, or on the other hand—by including substantive
