HDMI output settings Windows 10 - Microsoft Community

I'm using an HDMI switch to connect my computer (input) to a computer monitor (output #1) and a TV (output #2). When I switch the output from the monitor to the TV, the sides of the image on the TV are cut off. The only way to get the image to display correctly is to change the screen resolution (from 1920x1080 to 1776x1000).

Automatically Adjust Screen Resolution when using HDMI ...

3 Enter the print dimensions or resolution. When you enter a print dimension in the Width or Height box, the other value changes automatically to retain the original proportions of the picture; the Resolution value also changes automatically. If you prefer, you can change the Resolution value, which alters the Width and Height values automatically.

Setting Output Resolution to Print Big Pictures - dummies

I read elsewhere that changing the output resolution of the screen can help. I know i can change the resolution of PPSSPP and Mupen64Plus, but what about the other cores?? If i could somehow cut the output resolution of the phone by half (1920x1080/2=960x540), I may be able to make RA run buttery smooth on a 1080p tv.

How to I change the output resolution? MHL-to-HDMI cable ...
