Synthesis: How to make sense of your design research This paper was originally destined for a talking head video as part of my study at Hyper Island, UK. The link to the video is at the end. It has not in-cite citations but all the references are in the time-coded bibliography at the end of the page.

### Synthesis: How to make sense of your design research

Information architecture is the way that we arrange the parts of something to make it understandable as a whole. When we make things for others to use, the architecture of information that we choose greatly affects our ability to deliver our intended message to our users. We all face messes made of information and people.

Definition of make sense. 1. : to have a clear meaning : to be easy to understand. We read the recommendations and thought they made (perfect) sense. The instructions don't make any sense (at all). The instructions make no sense (at all). You're not making much sense (to me).

### Make Sense | Definition of Make Sense by Merriam-Webster

Coroutines are a great way to write asynchronous code that is perfectly readable and maintainable. Kotlin provides the building block of asynchronous programming with a single language construct: the suspend keyword, along with a bunch of library functions that make it shine.. In this post, I'll try to explain in simple words the basics of coroutines and suspending functions.
